

POWER FORWARD<sup>SM</sup>

# PARTNER WITH PSO FOR POWERFUL SAVINGS

We'll help you find lots of ways to save energy at home. Many of them are simple and easy to do, like upgrading to a programmable Wi-Fi thermostat and installing new door and window seals. While all of these improvements will help lower your energy usage, major upgrades like new heating and air conditioning systems can save you the most each month while improving the overall comfort of your home.

Here's the best part: If you make your home more energy efficient, we'll help you pay for it. And customers with a household income of \$55,000 or less may even qualify for FREE home weatherization updates. Call 888.776.1366 for more details. From instant discounts to rebates worth thousands of dollars, here's how we can all save with PSO.

## DO-IT-YOURSELF

These are simple ways to upgrade your home that you can generally do yourself. The rebate value is for each individual purchase, but only a limited number are available for the year. Buy early!

### ELECTRONICS

UPGRADE	REBATE PER UNIT

**MORE REBATES ON THE BACK**

<sup>1</sup>Visit energystar.gov to view qualified products. For full details, please view the rebate form. Rebates available while funds last. <sup>2</sup>Instant discount available at participating retailers. Look for the PSO sticker to find qualifying products. <sup>3</sup>Installation must be completed by a qualifying service provider. <sup>4</sup>Rebate only available to customers participating in the multiple upgrade bonus. <sup>5</sup>HVAC replacement in multiple upgrades must be combined with Duct Replacement or Duct Sealing. <sup>6</sup>Customer may receive additional \$350 per ton for single upgrade or \$525 per ton for multiple upgrades. <sup>7</sup>All multiple upgrade projects require a mandatory Home Performance Test-in and Test-out of the home to verify the correct level of energy efficiency has been achieved.

## PARTNER WITH A PARTICIPATING SERVICE PROVIDER

The way to save big in making your home more energy efficient is to invest in these major upgrades. Not only does PSO help you pay for them, but the savings on your bill will be greater. Find a participating service provider on our website and ask about what upgrades are best for you that carry the greatest rebate savings.
