Needed help with our A/C that wasn't working properly. Left a message on Sunday evening & they called first thing Monday morning. Nick was out by 1pm & fixed the problem (loose wire). Thankful for their prompt response & taking care of the issue.

Natalia was very helpful and patient with scheduling my service. Joel and Diego did a great job installing my unit! Will recommend to anyone in need of heating/cooling services.

Alex and Fernando are great to work with. We had a duct system for a swamp cooler hooked up to our AC. A&M fixes the issue at a reasonable price and our AC and heat has never worked so good. We are on their two year maintenance plan and they make sure that our system is working properly.

The Company as a whole is terrific, and this review is especially for Joel Rodriguez! This man is a class act in many ways, from professionalism to excellent workmanship. We share a mutual client (I'm a Realtor) and long after the transaction was completed he went back out to the client home for a simple service, discovered more, and well surpassed what most would of done to make her happy. I highly recommend Joel and AM Heat Cool time and time again! Again class act, with good old fashion business values - Thank you Joel!!

A.M. Heating & Cooling is a fantastic company. The service and attention to detail are fabulous. Since I had my AC/Heating units changed last year in both my home and office my electric bills have dropped dramatically, and more importantly everything cools and heats so it is really comfortable.

The service from AM Heat Cool is top notch! We just bought a home here in Tucson and wanted to have our system checked out thoroughly as we weren't sure when it was serviced last. We bought the "Summer Time Tune Up" service and were quite surprised to see how many tests were performed and the amount of cleaning done by the technician. He did find some shotty work done by the previous company, a weak capacitor and offered some great recommendations on how to get more performance and energy efficiency out of our existing system. We already booked another appointment with them to correct the things found on today's visit and will be purchasing a new system from them this winter. Keep up the great work AM! P.S. Mo the technician was on time, professional and very knowledgeable.

Excellent professional service in installing a new HVAC unit. Joel and his staff were delightful to deal with. They performed the work as promised and our new system was up and working the same day.

I genuinely can't say enough great things about AM Heat Cool!

Initially our AC unit stopped working in the middle of a horrid 110+ degree span this past June. I attempted to place a claim with my home warranty program (sadly AM Heat Cool isn't listed as a company through the warranty program), however they were unable to dispatch a tech due to scheduling over three weeks out. I contacted AM Heat Cool and spoke with Natalia. She scheduled an appointment a few days after, however the home warranty company was then able to schedule an appointment within a few days. I ended up choosing to proceed with the home warranty company due to the convenience of paying a \$100 copay. Natalia (from AM Heat Cool) called a few days after our AC was repaired by the home warranty company to ensure that our AC was repaired and running. I've never experienced this in the past and was amazed at the amazing customer service from AM Heat Cool after I chose to have my unit repaired through the home warranty company.

A few weeks ago, we began having issues with cooling the downstairs of our home. Our home AC unit has 3 zones. The most important zone (family room/kitchen) stopped cooling while the 2 zones upstairs became an arctic! We contacted AM Heat Cool & they came out the following day. We received a text showing a photo of the AC tech, in addition with a tracking option when he was on his way to our home. Joel was our tech, he was awesome and extremely knowledgeable. He is an AC ninja no doubt! We noted that our AC was working too well, if that can be considered an issue. We contacted AM Heat Cool and Joel came out same day to adjust a few things. I'm ever so grateful for the amazing service from AM Heat Cool! Thank you for all that you do!

I had 2 people recommend AM Heat Cool and I'm glad I gave them a call. Joel n Mo installed AC n in my home that's never had AC before. They did an AMAZING job. Completed job in the estimated time that was promised. Hauled away both coolers n heater. Joel n Mo are a great team. Thank You AM Heat Cool. I definitely will recommend you.

None of us want to think about repairing or replacing HVAC equipment, but when the time comes, why not support a local family business? A.M. Heating & Cooling is focused on beauty, efficiency, and functionality in your home, and the technicians are very aware of and respectful of the trust their clients place in them.

Joel was quick to help when our furnace stopped working, and he only replaced the one part that failed. I trust A.M. for all my HVAC needs now and I do not hesitate to refer them to friends and clients.

Fast response, efficient and cost conscious -- AM Heating & Cooling truly looks out for their customers. They went the extra mile and contacted the manufacturer of our equipment to check warranty information saving us money. Mo and AM Heating & Cooling are awesome!
