Tyler was on time, got to work quickly and determined the problem. He fixed the issue and got the unit working properly. He let me know what was happening with each step and checked to make sure each thing he wanted to do next was okay to do. He kept me posted on cost prior to completing the work and was just over all very easy to work with. I was very pleased with the work done and to have the mini-split working properly again! I will definitely use Blown Away HVAC again when needed!

Blown Away far exceeded any expectations for value, professionalism, promptness and extreme consideration in caring for your home .

Having Tyler Pennington, owner of Blown Awa install a new HVAC and new duct works was one of the best decisions we have ever made. We could not be more pleased. You will not be disappointed. FIVE STAR

Tyler came out and checked the system and found nothing needing immediate attention. He made suggestions that would help the air flow and ability of system to keep up on rally hot days. He only charged a analysis fee and did not try to up charge me. Great professional.

Very professional experience! My a/c cut off late called him in the morning and repaired it the same day! Week later my dads place that he vrbo's unit stopped working the day before the renters came and had that fixed by the end of the day. Would highly recommend to anyone that's looking for a trustworthy and professional company!

Tyler is a very nice young man. He knows his stuff. My AC stopped so I called him this morning. He came as soon as he finished his job he was on. He knew right away what the problem was. He had it fixed in a short time. I will always call him when I need him.

Our air conditioner stopped working and It was hot in the house. I started looking for places hoping to find someone that was open 24 hours. I called all of them and nobody answered. I found this one and someone called right back! He then told us he would be at our house in 10 min and came right away even at 9:15pm!! That's dedication to their jobs and customers!!! We will be using again! I can't say thank you enough!!!

My heat had quit working after we removed our nest thermostat to paint and put it back up. We spent a night in a very cold house. About 53 degrees. I was desperate and found Tyler with Blown Away online and he was here in less than an hour and got my heat fixed! He fixed the wiring for the nest and replaced the contactor on my unit which had been overheating. So glad my house is starting to warm up again. I will definitely use him for any future issues.

Tyler fixed our AC unit that went down on us this past summer, he was here within an hour of calling him, very knowledgeable guy diagnosed the issue within 5-10min and made quick work of it. Paid him an honest amount for our family to be comfortable again in the summers heat, thank you Tyler we were Blown Away!

Was very pleased with our service. Our usual company could not work us in, Tyler worked us in even when he had to come in the evening hours. He was very nice and cared we might not have heat on this cold night. We now have a new HVAC company. I would definitely recommend Blown Away HVAC.
