Dustin is fantastic. He is very responsive and always on time. He takes the time to clearly explain problems and the pros/cons of solutions. He was able to replace a furnace quickly and for a fair price and bent over backwards to fix a wiring issue that stemmed from the original HVAC wiring in my very old house. I have referred my friends to Hoffman and I will definitely continue to do so.

Hoffman Heating and Cooling was recommended by another resident in my neighborhood and I am so happy I called! The communication is above excellent and Dustin was very kind and professional.

Some of THE nicest people you could come across. James was very helpful and super nice to deal with. So many other companies kept telling me that they were too busy, or I wasn't an existing customer so they could not help me. Hoffman came out the next day and honestly could not have been better to work with. They did not pressure me into anything; they explained what was wrong, what some possibilities were and the pros and cons to each. It was a wonderful experience after a stressful time with no AC during a hot part of the month!

I would like very much to endorse this business for your HVAC needs. The owner responded quickly and showed up within 24 hours. It was hot and I was desperate but after reading his reviews I knew this would be a local business I would want to do business with. The reviews were accurate and I appreciate the honesty and speed in which he was able to fix the problem. Thank you for a fair honest assessment and getting me back in my happy place 😊

Just had Dustin and James replace the HVAC system. AC and furnace. They also repaired some duct work and ran new thermostat wiring. Both guys are professional and personable.

The price was good and I got outstanding workmanship. All the work they did got finished in a day in pouring rain and slick mud in my yard. They absolutely did a fantastic job.

The new system is less than half as loud as the old one and works so much better. Definitely happy with everything.

We were in desperate need of getting our heater fixed this past winter. We were referred to Hoffman Heating and Cooling where we met the owner Dustin! He quickly did a consultation, scheduled us and got our heater going in a short amount of time! His prices are reasonable and AFFORDABLE! Honestly the best in town!

Dustin saved us from having a horribly hot night! He came out same day and fixed the compressor on our A/C unit and even cleaned out the cottonwood that surround the A/C unit so it would function properly. He was extremely professional and knew his stuff. I would highly recommend Hoffman! Thank you again Dustin!

We used Hoffman Heating and Cooling last year to replace an old A/C unit and rework some ducts. Just recently we called them back to fix some duct work we missed during the initial repairs. They do good work at good prices, but beyond that are excellent communicators and fielded my noob questions without seeming put out by them. Highly recommend.

We had a heater installed in our garage since there are no vents/it isn't insulated. Dustin went over different options, costs, what he would be doing and pros/cons based on our needs. He was professional, efficient, knowledgeable and got the job done quickly/correctly. We are very satisfied with his work as well as the the finished product and have been recommending him to anyone who asks about hvac.

I have had Dustin come out and redo the duct work in my home to get more cool air to the back of my house. He has also done routine maintenance for Heat and for Air and done an awesome job with that as well. He's very patient and explains things clearly, and will answer my silly questions without judgement! He's very knowledgeable and always gets the job done right! 10/10 would recommend!
