Contacted the business about pricing a new furnace and air conditioning unit. The employee was very professional and answered all questions. Was able to get an estimate to us in a timely manner. Decided on the unit and it was installed the next week. The two technicians were very courteous and professional. They worked diligently on the installation and answered our questions promptly.

This starts with our new (to us) home having an AC system that is very unusual. We had 2 or 3 different companies look at it, nobody knew quite what it was except one tech who said he'd only seen it used in a residential application a handful of times in his long career. Then that guy went on leave and we were stuck. Nobody else was willing to work on it or, if they did, they shouldn't have. Eventually called Norwalk Heating & Air Conditioning and they not only were willing to take on this odd duck, but the technician (Jeff) TAUGHT HIMSELF how to work on it in his spare time and has been able to get it running well. In addition, they've been our allies as we've fought with our home warranty company over and over again about covering the repairs. Simply put, this is one of the best customer service experiences I've had. Really can't recommend these folks enough. We are lucky to have them local to us. Thank you for your effort, patience and skill!

We have been a customer for 6 years now. Norwalk Heating services both of our homes, my parents home and my In laws home. They have a knowledgeable staff and they provide fast, friendly service 24/7. We recently had a new system installed and install crew is top notch. Quick, highly efficient and clean, no mess. Norwalk Heating can service all of our heating and airconditioning needs, most importantly, they are honest and affordable. Julie Lochotzki

At the time we had an emergency, and no company that we were attached to since our guy moved business elsewhere. Called and left a message. The owner himself called us and set into motion the partnership we still have with them from several years ago. Great service, great company, dedicated technicians. The one guy, Jared, I think, has made an impression on our puppy! She loves it when ha comes. Thanks all for doing a terrific job!

Super Job! Norwalk Heating & Cooling just installed my new Lennox Furnace & A/C complete with Smart Thermostat. They went the extra mile and changed the location of my A/C unit to the other end of my house. Not an easy task. Loren, Butch, Bill, Jared Very professional Install. Nice & Neat Thank You Guys
