This place is super! I called and spoke to Mike and he was able to answer a few questions for me over the phone. He very promptly booked us in for a dishwasher install on the next available day. The plumber that came to do the work was very clean and tidy with the work. He was extremely pleasant. Not only was the quality of the work top notch, but the final cost of the work was very reasonable. I will call these guys back next time we need a plumber

When my sink collapsed under my granite counter, I called 9 plumbers. Not only was Precision the only one to call me back within a week, they were able to get my repair in the next day. Outstanding quality and responsiveness. I couldn't be more happy with these guys.

Great experience with Precision Plumbing last week. I called early Friday morning and Mike was very friendly and knowledgeable. He was able to squeeze us in at the end of the day so we didn't have to go without a kitchen sink for the weekend. Len was our plumber and he was also extremely friendly, professional and gave us lots of tips on how we can avoid the issue from happening again. We will definitely call Precision Plumbing again in the future. Thank you!

From start to finish, the employees at Precision Plumbing were knowledgeable, polite and professional. It was the start of the Thanksgiving long weekend and we had a blocked drain that was causing water back up into our house. Mike and Brandon made an unpleasant situation a positive experience and because of that I will continue to call Precision for any plumbing services we need in the future. Thanks again for all your hard work!

Scott did an excellent job finding the leak in kitchen pipe that had caused a lot of damage. He explained that the angle over the years had caused the leak. He explained the options to fix it and focused on doing the job at a value rate. Highly recommended.

Jim and Danny you two are our heroes. Everything is closed, it's New Years Eve, and our shower won't turn off. The handle spins round like a Rick Astley song and we can't get a replacement part. These two heroes call me back in under two minutes and meet up with us in under five. Thank you soo much for your help!

was very impressed with the service from Precision Plumbing.

My house was built in the 1980's using the older Poly-B piping - which unfortunately has a well-known reputation for developing spontaneous leaks after a few years. After years of dealing with numerous Poly-B leaks I decided to have all the Poly-B in my house taken out and replaced with new Pex-A piping.

Precision Plumbing came in with a very competitive quote to replace all the old Poly-B in my house, and also to replace my old water heater.

Everyone I have dealt with at Precision Plumbing has been extremely professional, friendly and helpful. Using only very minimal openings to the drywall, Jim and Zac did top notch work replacing all my Poly-B plumbing on all three levels. I was extremely impressed with their work! All the staff at the Precision Plumbing office including Jay, Mike, Tara and Vicki were wonderful to deal with.

I contacted Precision this morning about getting a plumber out to fix an emergency leak. I spoke with Mike who was going to do his best to get someone out today during normal daytime hours. He was so helpful, responsive and professional. As it turns out, we weren't able to utilize Precision's services due to going through insurance. However, based on the excellent customer service provided by Mike, I would gladly call on Precision if we need a plumber in the future!

Thank you Mike and Johnathan for the great work you did for us. I can't say enough good things about the service we received. We had a leak in our main shut off valve and they did all the work right down to contacting the city to shut off street side. I didn't need to worry about a thing. Johnathan was so nice and explained things to me when I had questions. His workmanship was topnotch. Very impressed. Thanks Precision Plumbing for coming to our rescue! We would recommend and use you again.

I was referred to Precision Plumbing from a friend. I dealt with Mike on the phone and he was so friendly and very professional. Len was scheduled to come and look at our sink, and he was on time and went right to work. He looked into everything and was very thorough. Their services were very affordable, and I highly recommend for other people do their business with Precision Plumbing!!
