Derrick was awesome. He called and said he could come out earlier than scheduled for the estimate. He was able to install both fixtures the same visit. He was friendly and did a great job hanging the chandelier and another fixture. Price was fair compared to competitors. Will definitely ask for him again.

Southern Coast has been a pleasure to work with. We have scheduled service with them a handful of times so far and they are always on time, provide informative information, they are thorough with each task, and they have always provided us with competitive pricing. Some of the tasks we've had Derek and Zack work on for us include tracing wires that were unintentionally cut during demo, replace outlets and light switches, move boxes to different locations, wire up a double sided fireplace, install light fixtures and fans, replace overheating circuit breakers, etc.

We will continue to use Southern Coast for our future electrical projects as they provide the best service at the best price for our customers! Also, they are amazing to work with! You will not be disappointed if you choose Southern Coast for your electrical needs. **Brandy Mendones**

I'm so thankful for your service! Terri and Derrick were caring and helpful, answering all my questions. They came immediately to help with a faulty dangerous outlet that caught on fire the night before. Very knowledgeable and professional. I'm extremely pleased and will continue to call when I have electrical needs.

Their communication was spot on. Derek and Zack came out to provide a quotation for one project we we had them do another while they were on site. They worked together and knocked out the project in two hours and were super friendly. Will definitely use them again.

I called Southern Coast to remove some old DISH equipment and wiring on a newly purchased home. They were able to come out within a few days to uninstall the equipment, wiring, and patched the holes. Super quick service, super friendly, great communication. They even came out after a heavy snow storm. We'll definitely be utilizing Southern Coast for other miscellaneous tasks around the home in the future. Highly recommend

Derrick and Zack came to our home and they are absolutely amazing. They are so professional, efficient, knowledgeable and willing to help in any way possible, giving ideas on how to fix issues that were difficult to figure out. If I ever need someone to fix any electrical situation in my house, I will definitely call Southern Coast Services again... and again... and again! I'm very pleased with all the things they have done for us!

Derek came and was super friendly and professional, he took time to explain everything to me. He went the extra mile when fixing my outlets and left the place cleaner than he found it. I would absolutely use him again!

We wanted to have wiring installed for a range in the basement kitchenette. We requested a quote and they responded quickly. After receiving the quote from Derek and Zach, which we thought was reasonable we were able to schedule work for next day. They were neat and completed work in about 3 hours. We've tried to get several electricians and none responded or kept promising so we are very pleased.
